

A55K Professional Certification Test Instructions

Congratulations on being prepared to take the A55K Professional Certification Test!

You will be taking a web-based test through Proctorio (remote proctoring service). To ensure a secure testing environment you will be asked to turn on your web-camera, your ability to use other programs will be temporarily suspended, and you will be advised to not take the test in an area where people can be seen moving behind you.

We apologize in advance if this causes any problems.

Thank you for working through the challenges of securing a remote testing environment!
