Steps in Certification Development

- Establishment of a Core Certification Team
  - ✓ Marlene Millemaci, Chair
  - ✓ Marsha Campbell
  - ✓ Rob Leibrandt
- Determination of Competencies for Baseline A55K Certification
  - ✓ Review of ISO 55000, 55001
  - ✓ Consensus on skills (i.e., knowledge, understanding and low level application) that provide a working capability of ISO 55000
  - ✓ Development of 3-5 test questions from each skill that demonstrate achievement
- Particular emphasis that training must include asset management of personal property, real property and people
- Evaluate the competence of Faculty providing the training
- Independent delivery of ALN certificate exam required to ensure integrity of the certification process

Asset Leadership Network

Steps in Assessing the Andrew James Advisory Group Proposal

- Review of all Materials, Offeror and Faculty Qualifications
  - ✓ Learning Content
  - ✓ Course Assessment Instruments
  - ✓ Faculty Vitae
- Identified deficiencies of the previously defined competencies
  - ✓ Missing Content
  - ✓ Assessment instrument that fails to demonstrated the level of competence
- Resubmission addressed the deficiencies above
- Course is provided either in-person or computer-based training with instructor-led discussion periods throughout
- Team determined the proposed approach should provide the attendee with the ability to successfully pass the ALN Certificate Program Test
- ALN leadership approved this determination
