stewardship | 'styooərdSHip |

noun

1 : the responsible overseeing and protection of something considered worth caring for and preserving

2 : the careful and responsible management of something entrusted to one's care.

Asset Leadership Network Member Companies

Helping organizations build better asset management programs.

Equipping organizations with vital tools and knowledge to achieve excellence in their management of critical infrastructure assets.

Water Agency in California High Desert

Planning for
uncertain future
and water
scarcity

Coastal Communities in Northern Queensland

Severe climate
threat to
vulnerable
communities

Water Authority in Northern Mexico

Severe drought
and failing
infrastructure

SWAN Members

Global leaders in advancing smart water worldwide.

SWAN is home to diverse industry leaders across key audiences. Through regional and global collaboration, SWAN Members are proactively influencing the water sector and creating a smarter, more resilient water future.

We provide a platform for progress and collaborative space for global curious minds to share information, knowledge, and solutions.

Collaborative SWAN Alliances/Work Groups

Established in 2015, this Alliance is home to diverse utility & industry leaders shaping smart water across the Americas.

Initiated in 2017, this Alliance brings together utility and industry smart water leaders across APAC.

Launched in 2019, the EUA consists of progressive, regional utility leaders advancing the smart water sector.

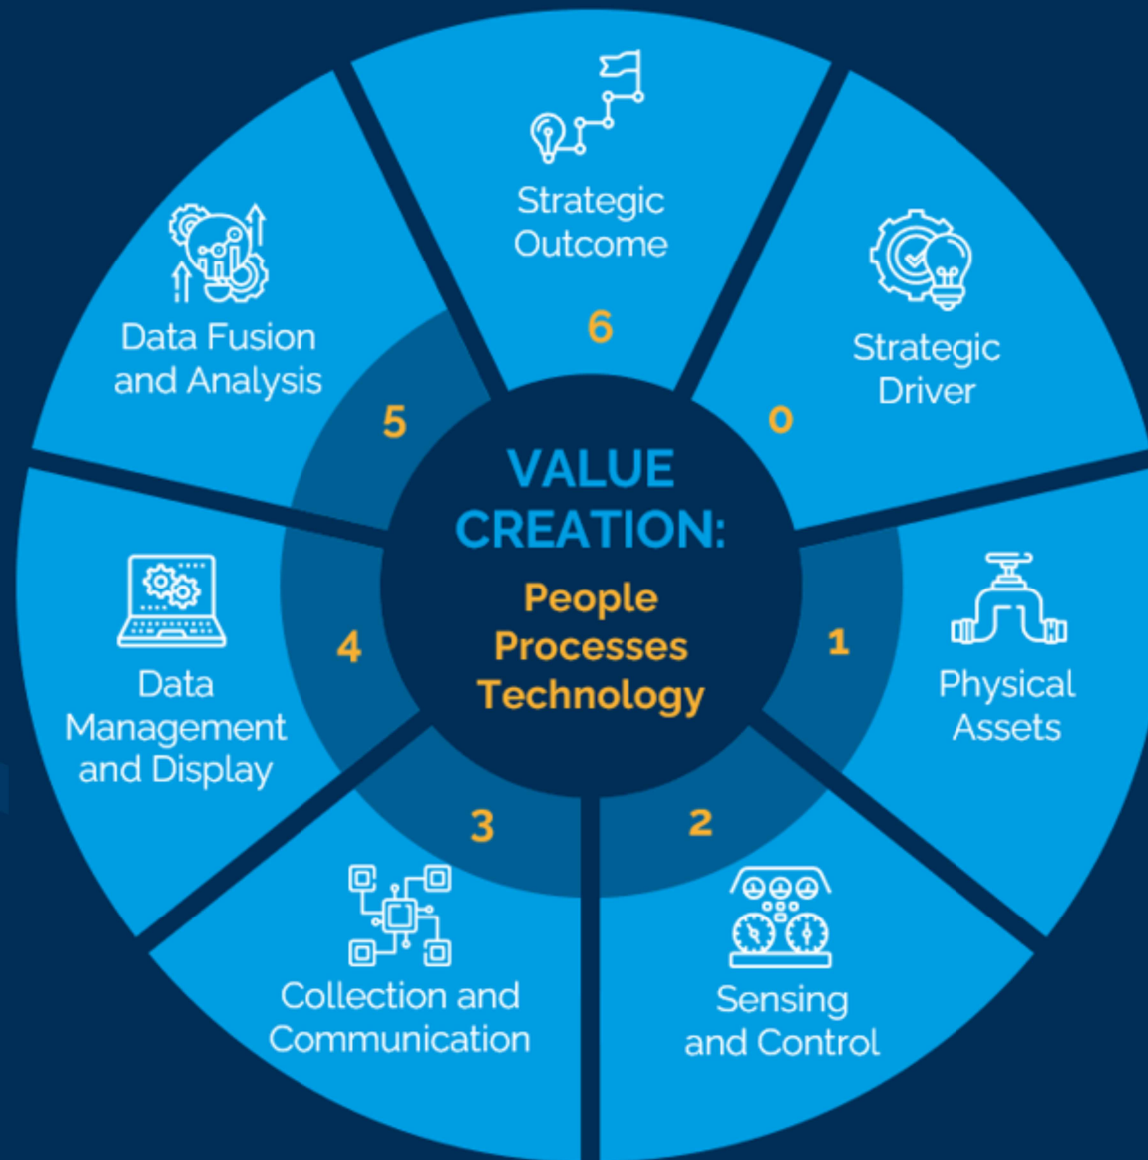

A recent initiative, this Alliance is driven by regional leaders working on smart water projects in this emerging region.

Formed 2019, this global Work Group of ecosystem leaders maps digital twin strategy and implementation.

Born 2019, this affiliate connects young professionals with smart water opportunities, from mentoring to upskilling.

Yvonne Carney

Yvonne Carney is WSSC Water's Director of Strategic Performance. **WSSC Water** provides water and wastewater services to 1.8 million Maryland residents of Prince Georges and Montgomery Counties. She is responsible for facilitating the development and achievement of WSSC Water's Strategic Plan and champions the use of data and risk analysis to drive decision-making across the utility. Currently she is leading an organisation-wide initiative to develop WSSC Water's Digital Strategy.

Prior to WSSC Water, she was Director of Performance Improvement at the Washington Metropolitan Area Transit Authority in Washington, D.C. Yvonne has a B.A. in English from the University of Houston and a M.S. in Community and Regional Planning from the University of Texas at Austin. She has certifications in Project Management, Enterprise Risk Management, Infrastructure Asset Management and Change Management.
