ALN BIMStorm – Higher Education

AI Talking about Attending an AI BIM Planning Session

Finith Jernigan, FAIA, author of the best-selling book on Building Information Models, “BIG BIM little bim” asked the GPT-4 Artificial Intelligence engine why someone should attend the ALN BIMStorm – Higher Education web workshop on [Wednesday 22 March at 4 pm Eastern](#). Here is his request and the result...

Help me write a blog post to attract participants to tomorrow's Asset Leadership Network BIMStorm focused on assets in Higher Education. Focus on how the participant can learn how an advanced asset governance system can guide using ever-evolving tools and processes such as ChatGPT, the Onuma System, and [Program2BIM.org](#).

"Suppose you're interested in learning about advanced asset governance systems and how they can guide evolving tools and processes. In that case, you won't miss tomorrow's Asset Leadership Network BIMStorm focused on assets in Higher Education.

"One of the critical topics of discussion will be how ChatGPT, the Onuma System, and [Program2BIM.org](#) can help streamline asset management and improve decision-making. ChatGPT, for example, is a powerful AI language model that can automate tasks, generate insights, and analyze asset-related data. The Onuma System is a cloud-based platform that provides a comprehensive solution for asset management, including data management, collaboration, and visualization. [Program2BIM.org](#) is a digital tool that helps integrate data from different sources and formats, making it easier to work with BIM models.

"Through this BIMStorm, participants will gain insights into the latest trends in asset management and learn how to apply them to the higher education sector. They'll also have the opportunity to connect with other industry professionals, share their own experiences and insights, and gain a deeper understanding of the challenges facing asset managers today.

"If you're looking to take your asset management skills to the next level, then this is an event you will want to attend. Register now and join us for an exciting learning, networking, and collaboration day!"
